August 2026

ELEMENTAL
ROYALTY

Disclaimer and forward-looking statements

This corporate presentation is for informational purposes only and must not be used or relied upon for any other purposes. This corporate presentation is not and does not constitute an offer or invitation to subscribe for or purchase, or any solicitation of any offer to subscribe for or purchase, any securities of Elemental Royalty Corporation ("Elemental" or "the Company") in any jurisdiction. This corporate presentation must not form the basis of, or be relied on in connection with, any investment decision in relation to securities of the Company nor does it constitute a recommendation regarding securities of the Company.

Market and Industry Data
This corporate presentation includes market and industry data and forecast that were obtained from third-party sources, industry publications and publicly available information. Third-party sources generally state that the information therein has been obtained from sources believed to be reliable, but there can be no assurances as to the accuracy or completeness of included information. Although management believes it to be reliable, management has not independently verified any of the data from third-party sources referred to in this corporate presentation or analyzed or verified the underlying studies or surveys relied upon or referred to by such sources, or ascertained the underlying economic assumptions relied upon by such sources.

Forward-Looking Statements
This corporate presentation contains "forward-looking information" within the meaning of applicable Canadian securities laws and "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995, (together, "forward-looking statements"), concerning the business, operations and financial performance and condition of Elemental. Forward-looking statements include, but are not limited to, statements with respect to guidance and long-term outlook, including future sales and revenue (including timing thereof) and the development pipeline of the Company's portfolio, potential for mill expansion, opportunities to supply mills, sulphide expansion increased cathode production and production, all of which are based on public forecasts and other disclosure by the third-party owners and operators of our assets or on Elemental assessment thereof including certain estimates based on such information; expectations regarding financial strength, trading liquidity, and capital markets profile; potential index inclusion for the Company's common shares; the amount and frequency of future dividends; the realization of synergies and other benefits in connection with the Elemental/EMX merger transaction, the identification of future accretive opportunities, permitting requirements and timelines; the future price of the Company's common shares; the timing and amount of estimated future production, including changes to production guidance; the future price of gold; the estimation of mineral reserves and mineral resources; and the realization of mineral reserve estimates. Generally, forward-looking statements can be identified by the use of forward-looking terminology such as "plans," "expects" or "does not expect," "is expected," "budget," "scheduled," "estimates," "forecasts," "intends," "anticipates" or "does not anticipate," "believes," "projects" or variations of such words and phrases or state that certain actions, events or results "may," "could," "would," "might" or "will be taken," "occur" or "be achieved." Forward-looking statements are based on the opinions and estimates of management as of the date such statements are made, and they are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking statements, including, but not limited to, volatility in the price of gold, discrepancies between anticipated and actual production with respect to portfolio assets; activities by governmental authorities (including changes in taxation), currency fluctuations and the accuracy of the mineral reserves, mineral resources and recoveries set out in the technical data published by the owners of portfolio assets; the absence of control over mining operations from which parties receive royalties from, and risks related to those mining operations, including risks related to international operations, government and environmental regulation, actual results of current exploration activities, conclusions of economic evaluations and changes in project parameters as plans continue to be refined. Although management has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended.

There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Elemental cautions readers not to place undue reliance on forward-looking statements, as forward-looking statements involve significant risks and uncertainties. Forward-looking statements should not be read as guarantees of future performance or results and will not necessarily be accurate indications of whether or not the times at or by which such performance or results will be achieved.

Elemental does not undertake to update any forward-looking statements except in accordance with applicable Canadian securities laws. Readers are directed to (A) the Elemental Royalty Annual Information Form dated March 23, 2026 (the "AIF"), filed under the Elemental Royalty profile on SEDAR+ (www.sedarplus.ca) for a complete list of applicable risk factors, as well as the Company's Form 40-F available on EDGAR at www.sec.gov/edgar.

This corporate presentation also contains future-oriented financial information ("FOFI") and financial outlook within the meaning of Canadian securities legislation, about prospective results of operations, financial position, GEOs and anticipated royalty payments based on assumptions about future economic conditions and courses of action, which FOFI is not presented in the format of a historical balance sheet, income statement or cash flow statement (and which financial outlook, in particular GEO sales and revenue, is presented in the format of a presented in the format of a historical balance sheet, income statement or cash flow statement). The FOFI and financial outlook has been prepared by management to provide an outlook on activities and results (and therefore readers are cautioned that the information may not be appropriate for other purposes) and has been prepared based on a number of assumptions including the assumptions discussed above. Management does not have, or may not have had at the relevant date all information to ensure the accuracy or completeness of FOFI or financial outlook and there can be no assurance that such operating results will be achieved and, accordingly, the complete financial effects are not, or may not have been at the relevant date of the FOFI or financial outlook, objectively determinable. Importantly, the FOFI and financial outlook are, or may be, based upon certain additional assumptions that management believes to be reasonable based on the information currently available to management, including, but not limited to, assumptions about: (i) the future pricing of metals / commodities, (ii) the future market demand and trends within the jurisdictions in which the mining operators operate, and (iii) the operating cost and effect on the production of royalty partners. The FOFI or financial outlook contained herein do not purport to present financial condition in accordance with IFRS, and there can be no assurance that the assumptions made in preparing the FOFI or financial outlook will prove accurate. The actual results of operations and the resulting financial results will likely vary from the amounts set forth in the analysis presented herein, and such variation may be material (including due to the occurrence of unforeseen events occurring subsequent to the preparation of the FOFI or financial outlook). Management believe that the FOFI has been prepared on a reasonable basis, reflecting management's best estimates and judgments as at the applicable date. However, because this information is highly subjective and subject to numerous risks including the risks discussed above within this "Forward-Looking Statements" section and under the heading "Risk Factors" or "Risks and Uncertainties" in the public disclosures (including the AIF and management's discussion and analysis for the year ended December 31, 2025), FOFI or financial outlook should not be relied on as necessarily indicative of future results.

Guidance
Guidance is based on public forecasts, other disclosure by the owners and operators of our assets, historical performance and management's understanding of the underlying producing assets. Additionally, Elemental may receive information from the owners and operators of the properties, which is not permitted to be disclosed to the public pursuant to the underlying agreement or the information has not been prepared in accordance with Canadian disclosure standards, including National Instrument 43-101 Standards of Disclosure for Mineral Projects ("NI 43-101").

Qualified Person
The scientific and technical disclosure in this corporate presentation has been reviewed and approved by Michael P. Sheehan, CPG, an employee of the Company and a "qualified person" as defined in NI 43-101 – Standards of Disclosure for Mineral Projects.

Non-IFRS Financial Measures
This corporate presentation contains non-IFRS financial measures, including GEOs sold, adjusted EBITDA, adjusted operating cash flow, adjusted cash flows from operating activities and revenue plus attributable share of Caserones. The non-IFRS financial measures disclosures included in the Company's 2025 annual MD&A are incorporated by reference in this corporate presentation. Further details on these non-IFRS financial measures are included on pages 29 through 31 of the Company's 2025 annual MD&A filed on SEDAR+ at www.sedarplus.ca and on EDGAR at www.sec.gov/edgar.

Cautionary Note to U.S. Investors
Concerning Estimates of Measured, Indicated or Inferred Resources This corporate presentation uses the terms "measured", "indicated", and "inferred" Mineral Resources. United States investors are advised that while such terms are recognized and required by Canadian regulations, which differs significantly from the rules and requirements of the United States Securities and Exchange Commission ("SEC"). Mineral resource and reserve information in this presentation may not be comparable to similar information disclosed by public companies subject to the technical disclosure requirements of the SEC. "Inferred Mineral Resources" have a great amount of uncertainty as to their existence, as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred Mineral Resource will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred Mineral Resources may not form the basis of feasibility or other economic studies. United States investors are cautioned not to assume that all or any part of measured or indicated Mineral Resources will ever be converted into Mineral Reserves. United States investors are also cautioned not to assume that all or part of an inferred Mineral Resource exist or is economically or legally mineable.

Key cornerstone royalties

Portfolio of outstanding tier-one producing and development royalties

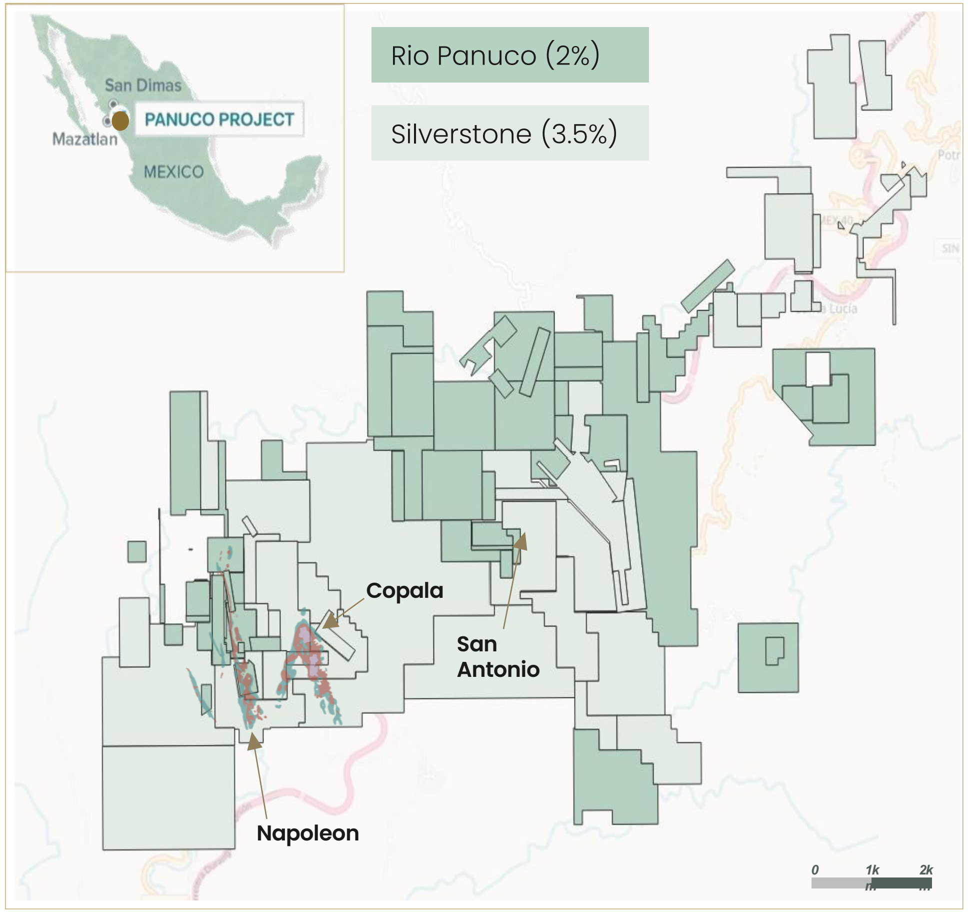
	Timok Čukaru Peki	Caserones	Karlawinda	Laverton
Royalty	**0.3625% NSR**	**1.304% NSR**	**2% NSR**	**2-4% GRR**
Operator	Zijin Mining	Lundin Mining	Capricorn Metals	Genesis Minerals
Region	Serbia	Chile	Western Australia	Western Australia
Commodity	Copper / Gold	Copper / Molybdenum	Gold	Gold
2024 Revenue	US$ 5.2m	US$ 5.3m	US$ 5.2m	-
2025 Revenue	**US$ 6.9m***	**US$ 19.0m***	**US$ 8.9m**	**-**
Mine Type	Underground	Open Pit	Open Pit	Open Pit / Underground
Mine Life	66 years	15 years	9 years	n/a
Catalysts	▪ Upper Zone plant expansion, mine life extension and continued exploration ▪ Lower Zone development progressing to block cave the porphyry deposit ▪ Discovery & advancement of MG Zone	▪ Approximately 100,000m of drilling at Caserones 2025 - 2026, focusing on in-pit lateral extensions of the main deposit, as well as further defining the Angelica deposit ▪ Part of the Vicuna District	▪ Mill expansion materially progressed and expected to complete in Q3 2026 ▪ Production to increase by 30% to ~150koz Au per annum in Q3 ▪ Resource definition drilling underway, with updated resource due in H1 2026	▪ Updated growth plan is due in Q3 2026, incorporating recent acquisitions, including ELE royalty areas ▪ Beasley Creek (ELE 4% GRR coverage) expected to be 'first cab off the rank' into new mine plan and currently focus of further drilling ▪ Exceptional long term exploration upside

* 2025 Revenue should the EMX Royalty merger have completed January 1, 2025

Announced acquisition of Vizsla Royalties – expected close Q3 2026

Uncapped 2.0–3.5% NSR on Panuco, a near-term production, tier-1, silver-gold asset in Mexico

Total consideration of ~C$327 million (US$239 million), with option to receive shares, cash, or a combination of shares and cash



New cornerstone asset

2025 FS indicates **17.4Moz AgEq** average annual production over 9.4 year life of mine (analyst consensus = 12 years)

Extensive royalty coverage

Royalty covers 100% of currently defined resources: **222.4 Moz AgEq** M&I at **534 g/t AgEq**

Visible pathway to revenue

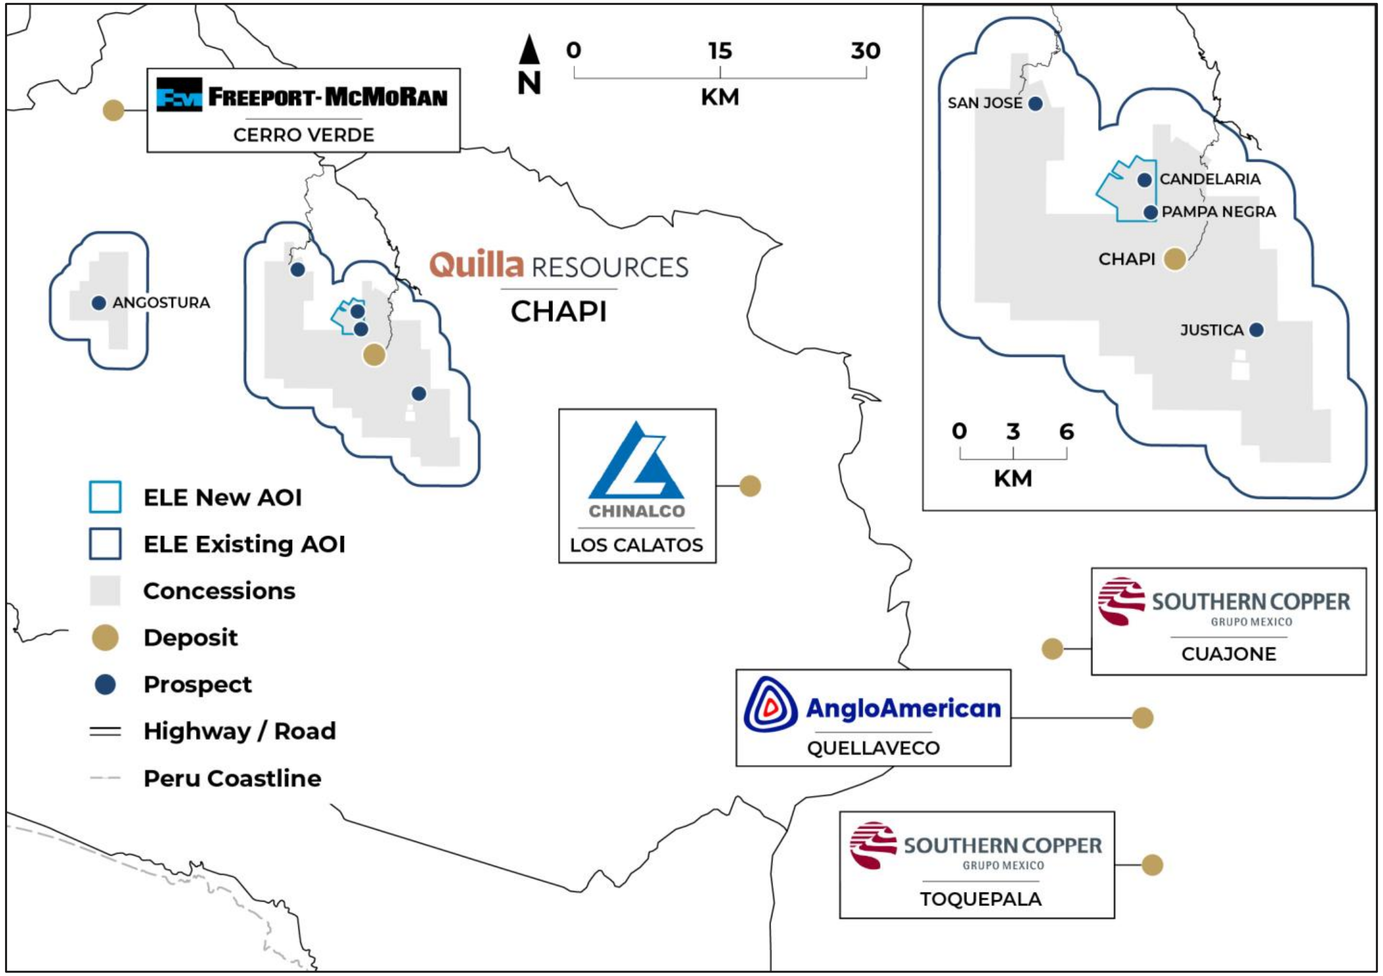
First production targeted H2 2027; key permitting applications already advanced. Operator fully funded for construction

Untapped exploration upside

Large, underexplored land package, including numerous near-mine & district targets within AOI

Chapi Copper Project - US$25 million investment package

Additional uncapped 1.0% NSR over Quilla's Pampa Negra and Candelaria concessions, with equity in Quilla



Enhanced copper royalty exposure

3% NSR over producing Chapi mine following successful restart

Visible pathway to increased production

Targeted expansion to 30ktpa, primarily from Pampa Negra and Candelaria

Exploration potential upside

Material exploration in prolific Southern Peru porphyry copper belt

Experienced management

Track record of successful project commissioning and operational expertise in Southern Peru

Other producing royalties

Portfolio of cash flowing and near-term production royalties

	Leeville	Bonikro	Gediktepe	Chapi	Ballarat	Balya
Royalty	**1% GSR**	**4.5% NSR**	**2.25% NSR**	**2-3% NSR**	**2.5% NSR (A$50m cap)**	**4% NSR**
Operator	Nevada Gold Mines	Allied Gold (Zijin Gold)	ACG Metals	Quilla Resources	Victory Minerals	Esan Eczacibaşi

Experienced leadership with proven track record of success

Management

Juan Sartori

Executive Chairman

Chairman and founder of Union Group International, a privately owned investment management firm focused on agriculture, energy, forestry, infrastructure, and real estate.

David Cole

CEO & Director

Former CEO of EMX having co-founded the business over 20 years ago. Comprehensive experience in capital markets, exploration, mining, and leading royalty companies.

Frederick Bell

President & Chief Operating Officer

Co-founder and CEO of Elemental Altus. Lead the listing of Elemental and subsequent merger with Altus Strategies. 15 years of experience in the UK, Canada, and Australia.

Stefan Wenger

Chief Financial Officer

Former CFO of EMX Royalty Senior executive with over 25 years of experience including CFO and Treasurer of Royal Gold. Experienced in equity and debt capital markets, corporate M&A, investor relations, and strategy.

David Baker

Chief Investment Officer

Formerly CFO of Elemental Altus Over 13 years experience in mining and mine finance, most recently Vice President at Tamesis Partners LLP.

Board of Directors

Juan Sartori

Executive Chairman

Chairman and founder of Union Group International, a privately owned investment management firm focused on agriculture, energy, forestry, infrastructure, and real estate.

David Cole

CEO & Director

Former CEO of EMX having co-founded the business over 20 years ago. Comprehensive experience in capital markets, exploration, mining, and leading royalty companies.

Sunny Lowe

Director

Former Director of EMX with over 20 years of finance experience in the mining sector. Currently CFO of Highlander Silver, formerly CFO of Solaris Resources and VP Finance at Kinross Gold.

Simon Vumbaca

Director

Former Non-Executive Director of Elemental. Currently Principal of ASV Private Office, and Non-Executive Director of Sunderland AFC.

Ravi Sood

Director

Currently Managing Director of Signal 8 and CEO of Golconda Gold. Previously CEO of Navina Asset Management and Lawrence Asset Management

Elemental Royalty: growth drivers

INTERNAL · LOW COST → EXTERNAL · CAPITAL DEPLOYMENT

Royalty Generation

Internally created royalties, vended to operators at low cost.

BHP Serbia | Partner-funded generation

- Three Serbian licences acquired in 2023/24
- Optioned to BHP in January 2026
- BHP funds US$5m of exploration
- ELE receives US$200k annually
- Retains 2% NSRs across all three licences
- Any 0.5% royalty buyback priced at US$10m

Balya | Internally generated to production

- Generated internally and sold to Dedeman in 2006
- Retained an uncapped 4% NSR
- Acquired and developed by Esan in 2019
- Initial Royalty revenue received in 2022
- 2025 revenue reached >US$2.0M

Royalty Financing

Cash deployed into royalties and streams to fund development.

Chapi | US$10m financing

- Direct investment with operator, Quilla Resources
- Secured a 2% NSR over Chapi and its 2km AOI
- Covers third-party ore processed through the plant
- First copper cathode produced within 13 months

Chapi and Quilla | US$25m package

- Increased Chapi exposure on Pampa Negra and Candelaria royalties to 3%
- Added approximately 9% equity in Quilla
- Supports expansion from 10ktpa to 30ktpa copper production

Third-party Acquisitions

Buying existing royalties from miners and prospectors.

Karlawinda | US$37.0m invested

- US$22.1m of cash flow recovered
- US$84.5m consensus NAV by Q4 2025
- Demonstrates significant realised value creation

Laverton and Jasper Hills | A$80m acquisition

- Expanded Laverton royalty to 4% GRR over $67km^2$
- Added a 2% GRR over a further $240km^2$
- Added immediate production from Jasper Hills

Corporate M&A

Whole-company combinations for scale and synergies.

EMX merger | US$456m

- Closed November 2025
- Added Timok, Leeville and Gediktepe
- Tripled Caserones exposure
- Contributed 1,826 GEOs before year-end

Vizsla Royalty transaction | C$327m [1]

- Received 99.8% shareholder and court approval in July 2026
- Uncapped 2.0% to 3.5% NSR Royalty on Panuco, a world class primary silver deposit
- Projected to generate approximately 7,500 GEOs annually once operating

Notes:
1. Approximate value as of transaction announcement, May 14, 2026. Transaction expected to close Q3 2026.

ELEMENTAL ROYALTY

Tether: supportive major shareholder

Investment in Elemental Royalty

- Gold a long-duration store of value, supports more durable transparent financial system
- Low-risk exposure to gold and commodity prices, avoiding direct mining or jurisdictional risk
- Real World Asset infrastructure aligns with advancing Tether Gold (XAU₮) Token through asset backed innovation
- Cornerstone ownership enables collaboration on long-term capital strategy

Investment genesis and thesis

- Tether (USD₮) is a stablecoin, which maintains a 1:1 value peg with the US dollar by backing each token with 100% reserves (cash, US Treasury bills, or physical gold)
- US$186bn of USD₮ in circulation
- Tether Investments is the strategic investment arm deploying profits into hard assets: real estate/ agriculture and gold. Acts as an independent venture firm focused on long-term, high-growth, real-world utility

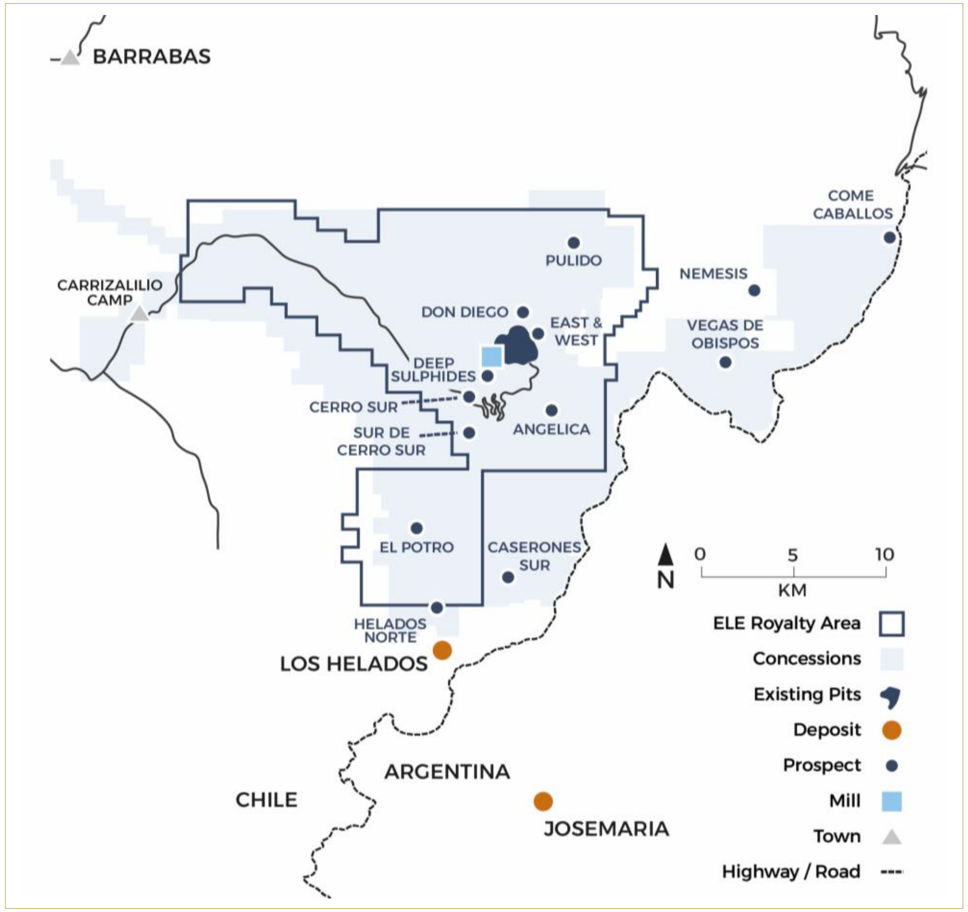
Cornerstone - Caserones

lundin mining

Uncapped 1.304% NSR on Lundin's Caserones Cu-Mo Mine in Chile



Operator	Lundin Mining
Region	Chile
Commodity	Copper Molybdenum
Mine Type	Open Pit
Mine Life	15+ years
2024 Production	125kt Cu
2024 Revenue	US$5.3m
2025 Production[1]	133kt Cu
2025 Revenue[2]	US$19.0m
2026 Guidance	130kt – 140kt Cu

Strong production

- During Q4 2025, Caserones achieved its highest quarterly copper production since Lundin took ownership, producing 39.6kt Cu
- Lundin exceeded the mid-point of original 2025 production guidance by ~12.9kt Cu

Exploration upside

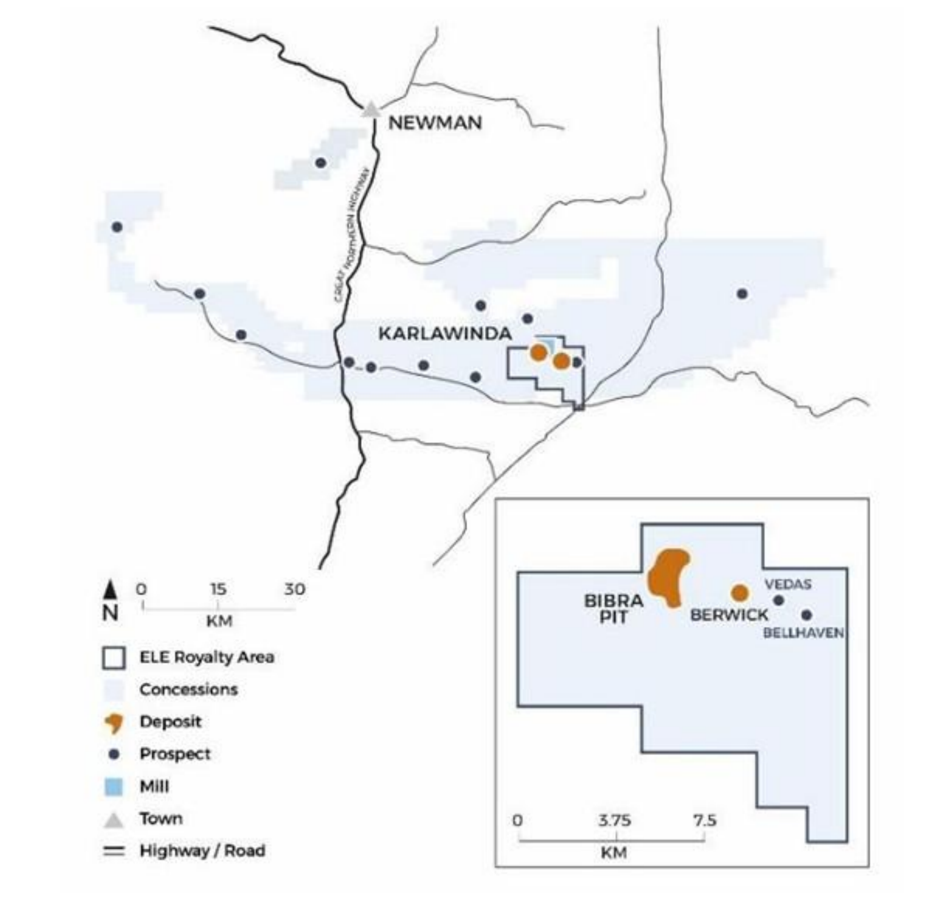
- 39,800m of drilling planned at Caserones in 2026, focusing on in-pit lateral extensions of the main deposit, as well as further defining the Angelica deposit

Notes:

1. Lundin Mining News Release entitled "Lundin Mining Announces 2025 Production Results and 2026 Guidance" dated, January 21, 2026
2. 2025 Revenue should the EMX Royalty merger have completed January 1, 2025

Cornerstone - Karlawinda

Uncapped 2% NSR on Capricorn Metals' flagship mine in Western Australia



Operator	Capricorn Metals
Region	Western Australia
Commodity	Gold
Mine Type	Open Pit
Mine Life	9 years
2024 Production	107.2koz Au
2024 Revenue	US$5.2m
2025 Production[1]	125.6koz Au
2025 Revenue	US$8.9m

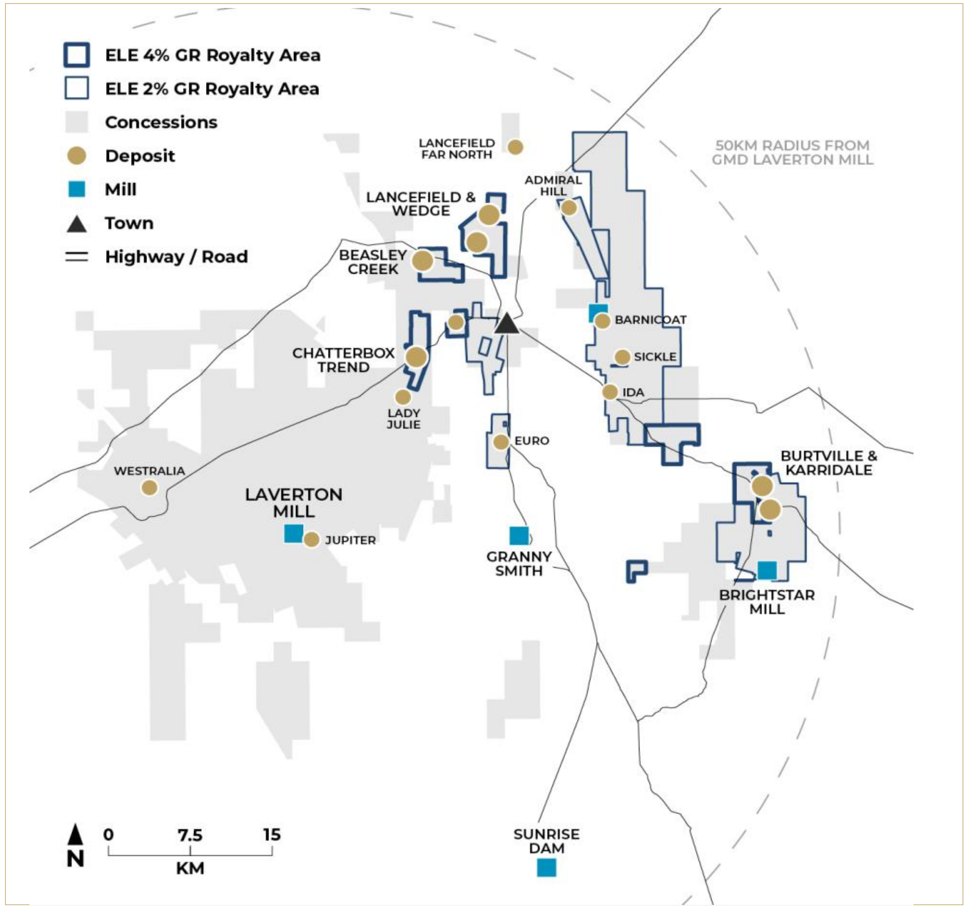
Upcoming catalysts

- Construction fully underway for the mill expansion, increasing production to ~150koz Au per annum from mid-2026
- Resource definition drilling underway, with updated resource due in H1 2026

Notes:
1. Capricorn Metals News Release titled "KGP Q2 Production 30koz – on track for upper end of FY26 Guidance", dated January 7, 2026

Cornerstone - Laverton

Uncapped 2-4% GRR over Genesis Minerals' Laverton Project in Western Australia



Operator	Genesis Minerals
Region	Western Australia
Commodity	Gold
Mine Type	Open Pit and Underground
Attributable Resource[1]	~3.6 Moz Au
Mine Life	n/a
2025 Revenue	n/a

Catalysts

- Genesis acquired the project in June 2025 and immediately highlighted potential for the project to supply ore to their operating 3 Mtpa Laverton mill
- In November 2025, ELE closed the acquisition of an additional 2% GRR, incremental to an existing 2% GRR already held by the Company

Upside potential

- An updated long-term growth plan is due in Q3 2026, outlining the outcomes of production and plant expansion studies
- Genesis are also assessing refractory gold potential, including the possible restart of the Lancefield mine (Inferred Resource of 790 koz at 6.3 g/t Au) within ELE's 4% GRR area[2]

Notes:
1. Full details of attributable resource coverage can be seen in Elemental's News Release titled "Elemental Royalty Completes Acquisition of Laverton Royalty", dated November 26, 2025
2. The Lancefield inferred JORC resource is reported from Focus Minerals news release dated July 23, 2018.

Producing Assets

18 cash flowing royalties

#	Project	Operator	Country	Commodity	Terms
1	Caserones	Lundin Mining	Chile	Copper	1.304% NSR
2	Karlawinda	Capricorn Metals	Australia	Gold	2% NSR
3	Bonikro	Allied Gold	Côte d'Ivoire	Gold	4.5% NSR (capped at 560koz production from PB5)

28	San Agustin	Heliostar Metals	Mexico	Gold-Silver	2% NSR on sulphides

Disclaimer and forward-looking statements

Market Scientific and Technical Data
Investors are advised that National Instrument 43-101 Standards for disclosure for Mineral Projects ("NI 43-101") of the Canadian Securities Administrators requires that each category of Mineral Reserves and Mineral Resources be reported separately. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.

Elemental considers its royalty or stream interests, as applicable, in the Karlawinda Mine, the Caserones Mine, and the Timok Project to be its only material mining projects (the "Material Projects") for the purposes of NI 43-101. Information contained in this corporate presentation with respect to each of the Material Projects has been prepared in accordance with the exemption set forth in section 9.2 of NI 43-101.
Description for the Karlawinda Mine is based on Elemental's technical report entitled "Amended NI 43-101 Technical Report Karlawinda Gold Project, Western Australia, Australia" dated December 31, 2020 with an effective date of December 21, 2020 and authored by Timothy J. Strong, MIMMM (the "Karlawinda Technical Report"), as amended August 4, 2021. The Karlawinda Technical Report was prepared in accordance with NI 43-101 and a copy is available under the Company's SEDAR+ profile at www.sedarplus.ca.

Description for the Caserones Mine is based on Lundin Mining's technical report entitled "NI 43-101 Technical Report Caserones Mining Operation Caserones Project, Atacama Region, Chile" dated July 13, 2023, and authored by AGP Mining Consultants Inc. (the "Caserones Technical Report"). The Caserones Technical Report was prepared in accordance with NI 43-101 and is available on Lundin Mining Corporation's company profile at www.sedarplus.ca.

Description for the Timok Project is based on the information in the technical report entitled "NI 43-101 Technical Report - Timok Copper- Gold Project Royalty, Serbia" dated March 25, 2022 with an effective date of December 31, 2020, prepared by Mineral Resource Management LLC (the "**Timok** Technical Report") which technical report was prepared for, and filed under EMX's SEDAR+ profile on March 31, 2022 at www.sedarplus.ca. A copy of the Timok Technical Report is also available under the Company's SEDAR+ profile at www.sedarplus.ca.

JORC Code
Certain Resource and Reserve estimates covering properties related to certain mining assets in this corporate presentation have been prepared in reliance upon the JORC Code. Estimates based on JORC Code are recognized under NI 43-101 in certain circumstances. In each case, the Mineral Resources and Mineral Reserves included in this corporate presentation are based on estimates previously disclosed by the relevant property owner or operator, without reference to the underlying data used to calculate the estimates. Accordingly, the Company is not able to reconcile the Resource and Reserve estimates prepared in reliance on JORC Code with that of CIM definitions. The Company previously sought confirmation from its Qualified Person who is experienced in the preparation of Resource and Reserve estimates using CIM and JORC Code, of the extent to which an estimate prepared under JORC Code would differ from that prepared under CIM definitions. The Company was advised that, while the CIM definitions are not identical to those of JORC Code, the Resource and Reserve definitions and categories are substantively the same as the CIM definitions mandated in NI 43-101 and will typically result in reporting of substantially similar Reserve and Resource estimates.

Cautionary Note to U.S. Investors
Concerning Estimates of Measured, Indicated or Inferred Resources This corporate presentation uses the terms "measured", "indicated", and "inferred" Mineral Resources. United States investors are advised that while such terms are recognized and required by Canadian regulations, the United States Securities and Exchange Commission does not recognize these terms. "Inferred Mineral Resources" have a great amount of uncertainty as to their existence, as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred Mineral Resource will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred Mineral Resources mat not form the basis of feasibility or other economic studies. United States investors are cautioned not to assume that all or any part of measured or indicated Mineral Resources will ever be converted into Mineral Reserves. United States investors are also cautioned not to assume that all or part of an inferred Mineral Resource exist, or is economically or legally mineable.

Elemental Qualified Person
Michael P. Sheehan, CPG, a Qualified Person as defined by National Instrument 43-101 and employee of Elemental, has reviewed, verified and approved the disclosure of the technical information contained in this corporate presentation.

Guidance
Elemental has included certain non-IFRS financial measures in this corporate presentation, as discussed below. Elemental believes that these measures, in addition to conventional measures prepared in accordance with IFRS, provide investors an improved ability to evaluate the underlying performance of Elemental. These non-IFRS financial measures are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. These financial measures do not have any standardized meaning prescribed under IFRS, and therefore may not be comparable to other issuers.

Non-IFRS financial measures are defined in National Instrument 52-112 – Non-GAAP and Other Financial Measures Disclosure ("NI 52-112") as a financial measure disclosed that (a) depicts the historical or expected future financial performance, financial position or cash flow of an entity, (b) with respect to its composition, excludes an amount that is included in, or includes an amount that is excluded from, the composition of the most directly comparable financial measure disclosed in the primary financial statements of the entity, (c) is not disclosed in the financial statements of the entity, and (d) is not a ratio, fraction, percentage or similar representation. A non-IFRS ratio is defined by NI 52-112 as a financial measure disclosed that (a) is in the form of a ratio, fraction, percentage or similar representation, (b) has a non-IFRS financial measure as one or more of its components, and (c) is not disclosed in the financial statements.

Elemental's adjusted royalty, streaming, and other revenue is converted to an attributable gold equivalent ounce, or GEO, basis by dividing the royalty and other revenue from associates in a period by the average gold price for the same respective period, plus the net gold ounces received in the period from streaming investments. The presentation of this non-IFRS measure is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. Other companies may calculate these non-IFRS measures differently. The production forecast was derived using information that is available in the public domain as at the date hereof, which included guidance and estimates prepared and issued by management of the operators of the mining operations in which Elemental holds an interest. The production forecast is sensitive to the performance and operating status of the underlying mines. None of the information has been independently verified by Elemental and may be subject to uncertainty. There can be no assurance that such information is complete or accurate.
